

Metraflex Basket Type

Pipeline **STRAINERS**

**Deliver Maximum Strainer
Capacity with Minimum
Pressure Loss**

RUGGED

**FOR LONG, DEPENDABLE SERVICE IN
2 PRESSURE CLASSES: 125 LB. / 250 LB.**

For Fluids and Gases: MetraFlex basket strainers serve in steam, air, water, oil, gas or chemical lines. Excellent performance records in suction and high and low pressure installations.

Prevent System Shutdowns: Foreign matter attends every pipeline and builds-up to cause blockages. MetraFlex strainers pay for themselves in preventing costly shutdowns.

Protect Vital Equipment: MetraFlex strainers positioned in front of intake pumps and before sensitive control equipment protect against faulting operations. Again shutdowns are eliminated . . . costly control equipment undamaged.
