

Metraflex Y-Type

PIPELINE STRAINERS

**Feature Blow-Off Cover Connections
and Self-Aligning Cylindrical Screens**

TOUGH

BUILT FOR LONG, RUGGED DUTY

Equal to the Job: Collecting contaminants, solids, etc. under pressure in fluid and gas lines requires a tough member. All MetraFlex Pipeline Strainers are designed and built . . . and have proved . . . to perform long and dependably.

Like the Basket Type: Except for a slightly smaller capacity, the Y-Type is comparable to the Basket Type in line of service. Also, the Y-Type features a flanged blow-off cover and is available in smaller pipe sizes.

**STRAINER BODY CASTINGS AND STRAINER SCREENS
AVAILABLE IN OTHER MATERIAL ON SPECIAL ORDER.**
