of Balancing/Triple Duty®* Type Valves

VANE FLEX™

FLOW STRAIGHTENING PUMP CONNECTORS

The Vane Flex™ Pump Connector provides the same flow straightening value as an equivalent 5 to 10 pipe diameter length of pipe. And at the same time provides the stress relief and vibration dampening of a pump connector, in a fraction of the space.

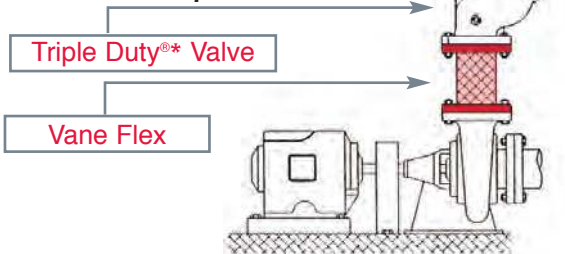

Target Your Flow...

Target Your Space Savings...

Vane Flex™ Offers:

- ✓ Hydrodynamic Shaped Vanes
- ✓ Less Pressure Drop than 5 to 10 Diameters
- ✓ Equal to 5 to 10 Pipe Diameters of Turbulence Reduction
- ✓ Full Range of Movement
- ✓ Maximize Straightening
- ✓ Same Face to Face as the Standard Pump Connector

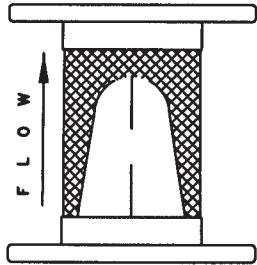

* - Triple Duty is a registered trademark of the Bell & Gosset Company
