

MODEL HPQ3 EXPANSION COMPENSATOR HIGH PRESSURE

Available with 150# drilled flat face plate steel flanges.

This expansion joint is specifically designed for building riser systems, and is designed to be used in conjunction with the Metraflex floor and ceiling guiding system. When used with standard guides, EJMA spacing requirements apply.

GUIDE "T"
FIELD WELD PIPE;
ALSO AVAILABLE WITH
PIPE CLAMPS FOR COPPER)

Floor and ceiling guiding system

A special "quiet-slide" insert in the sliding "T" guide channel provides virtually silent operation and isolates pipe noise from building.

Guides are to be used in conjunction with riser expansion compensator. Guides are bolted to ceiling and floor. Sliding "T" guide is inserted into "quite-slide" lining in channel and welded to pipe.

Maximum Temperature Rating: 250°F
